## PROFESSIONAL PROFILE

Dedicated and detail-oriented Software Developer with 1.5+ years of experience specializing in Flutter and React.js development. Skilled in designing, developing, and deploying mobile and web applications using modern technologies including Node.js, Express, and MySQL.

Passionate about solving real-world problems through scalable and user-friendly digital solutions. Strong collaborator with excellent communication, problem-solving, and teamwork skills.

## PROFESSIONAL EXPERIENCE

### Mobile App Developer

07/2025 – Present

Niyat Consultancy

- Building and maintaining scalable mobile applications using Flutter.
- Developing production-ready features for client-facing mobile systems.
- Applying clean architecture and reusable component patterns.

Key Project - Niyat Ride App (MVP)

- Architected and developed MVP for a ride-sharing platform.
- Implemented booking flow, trip states, and real-time UI updates.
- Built user-friendly and scalable mobile interfaces.
- Demonstrated commercial feasibility through working prototype.

### Mobile App Developer (Intern)

11/2024 – 02/2025

Grand Technology Solutions

- Developed Tigray Youth Association Member Management System (TYAMMS).
- Used Flutter, Node.js, Express, and MySQL.
- Built mobile interfaces and integrated backend APIs.
- Participated in full lifecycle development and testing.

### Mobile App Developer (Contract)

03/2024 – 06/2024

Tigray Culture and Tourism Bureau

- Built Flutter application for cultural heritage registration.
- Digitized manual registration processes.
- Integrated MySQL backend services.
- Improved data collection and operational efficiency.

### Full-Stack Developer

Ethiobeds Pension Reservation System

Project: [www.ethiobeds.com](http://www.ethiobeds.com)

- Developed a complete pension reservation platform used by real customers.
- Built frontend using React.js with responsive booking interfaces.
- Developed backend using Node.js and Express.
- Implemented reservation workflows and booking logic.
- Built admin and management features.
- Designed full client-server data flow and database integration.
- Delivered a production-ready full-stack web system.

## EDUCATION

### B.Sc. in Information Technology

2018 – 2025

Mekelle Institute of Technology - Mekelle University

- CGPA: 3.88 / 4.00
- Exit Exam Result: 86 / 100

## TECHNICAL SKILLS

---

### Mobile Development

- Flutter
- Dart
- Responsive UI Design
- State Management (Bloc)

### Web Development

- React.js
- HTML / CSS / JavaScript

### Backend

- Node.js
- Express.js
- REST APIs

### Databases

- MySQL
- MongoDB

### Tools & Practices

- Git & GitHub
- Clean Architecture
- REST Integration
- API Design
- UI/UX Implementation

## LANGUAGES

---

English

Tigrigna

Amharic

## PROJECTS

---

### CBEBirr App Clone - Showcase Project

- Developed high-fidelity clone of CBE mobile banking app.
- Focused on advanced UI/UX accuracy.
- Implemented secure-style flows and structured architecture.
- Built as a portfolio demonstration project.
